Office Action Summary	Application No. 10/801,997	Applicant(s) BEGLEY ET AL.	
	Examiner Dawn Garrett	Art Unit 1774	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 16 March 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:
Naphthacene compounds. Applicant should select a naphthacene compound according to either Formula (I) or Formula (III).

If Formula (I) is selected, applicant should indicate a single substituent group for each of R1 to R6 from alkyl, substituted alkyl, aryl, substituted aryl, fused aromatic ring, heterocyclic ring, substituted heterocyclic, heteroaromatic ring system, alkoxy, aryloxy, alkoxyamino, alkylamino, arylamino, fluorine, chlorine, bromine, or cyano. Applicant should further indicate a number representing each of a, b, c, d, e, and f.

If Formula (III) is selected, applicant should indicate hydrogen or the substituent group at each of positions 1 through 12 on the naphthacene skeleton.

[For search purposes, the examiner further requests indication of an ultimate species that is representative of the elected naphthacene compound.]

2. This application contains claims directed to the following patentably distinct species:
Blue light emitting materials. Applicant should elect a single blue light emitting material from

- (a) the claim 18 formula,
- (b) perylene and its derivatives, or
- (c) bis(azinyl)amine boron complexes.

3. This application contains claims directed to the following patentably distinct species:

Art Unit: 1774

Green light emitting materials. Applicant should elect a single green light emitting material from

- (a) coumarin derivatives,
- (b) quinacridone compounds, or
- (c) bis(azinyl)methene boron complexes.

4. The species are independent or distinct because the different substituent groups result in different properties and functions. Also, the search for one is not the same as a search for another given the different substituent groups.

5. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

6. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

7. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

8. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

Art Unit: 1774

9. The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

10. Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

11. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dawn Garrett whose telephone number is (571) 272-1523. The examiner can normally be reached Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rena Dye can be reached at (571) 272-3186. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
